- software development

## WORK EXPERIENCE

- 2021 - 2024

Freelance

Full-Stack Web Developer

  - I create visually stunning, functional designs using Figma, ensuring a seamless user experience tailored to clients' needs.
  - Skilled in crafting responsive and interactive user interfaces with HTML, CSS, JavaScript, React.js, and Tailwind CSS.
  - Proficient in integrating front-end and back-end systems, delivering fully functional web applications using Next.js and modern development practices.
- June - November 2024

DeepEcho

UI / UX Designer

  - Successfully rebuilt the web app design for a startup, enhancing usability, aesthetics, and overall user engagement using Figma..
  - Designed intuitive and visually appealing mobile app interfaces, focusing on user experience and seamless navigation.
  - Conducted research and applied user feedback to ensure designs aligned with the target audience's needs and preferences.
